

Pedestal Grinding Machine

LT250

Made in China

Reference Picture

Features:

Pure copper wire motor high efficiency, strong power, long service life

Transparent protective glasses

Adjustable baffle, according to the wear and tear of the wheel to adjust the position

Adjustable tool holder, easy for the operator to maintain the workpiece

Double symmetrical configuration of the two wheels, which will help the machine run smoothly and improve the utilization of equipment

Cast steel vertical base, easy installation, high strength

Technical Parameters:

Voltage & frequency: 230V/380V-50Hz

Input power: Minimum 750W/350W

No load speed: 3000rpm

Pedestal stand should be supplied
