

## Auto Gear Model

LTA-253

### Product introduction:

This product is a cut-away of an automatic transmission with front wheel drive. It has been carefully sectioned for training purposes, and professionally painted to help differentiate between parts. Many parts have been chromium plated and galvanized for a longer life. An exploded/cut-away view of the hydraulic circuit is provided to better show its various ducts and valves. This transmission is operated manually and is mounted on a stand with wheels, which is helpful for students to understand the real object.

### SPECIFICATIONS:

- + It will be on stand with wheel and operated manually
- + Dry single-plate clutch with spring and diaphragm
- + will be operated through a hand wheel.
- + The clutch will be operated mechanically by means of a foot pedal for training purposes.
- + FWD
- + 4 forward speeds + reverse
- + Casing
- + Torque converter
- + Oil pump
- + Stationary plate clutch
- + Rotary Plate clutch
- + Planetary gear train
- + Hydraulic circuit valve
- + Centrifugal regulator
- + Mounted on stand with wheels
- + Operated manually

**Note:** The Picture pattern just for references may change

### WEIGHT AND DIMENSIONS:

Size: 90cm x 60cm x 100cm (L x W x H) or customized

Net Weight: 60 kg

Gross Weight: 85 kg
