

ABS Module

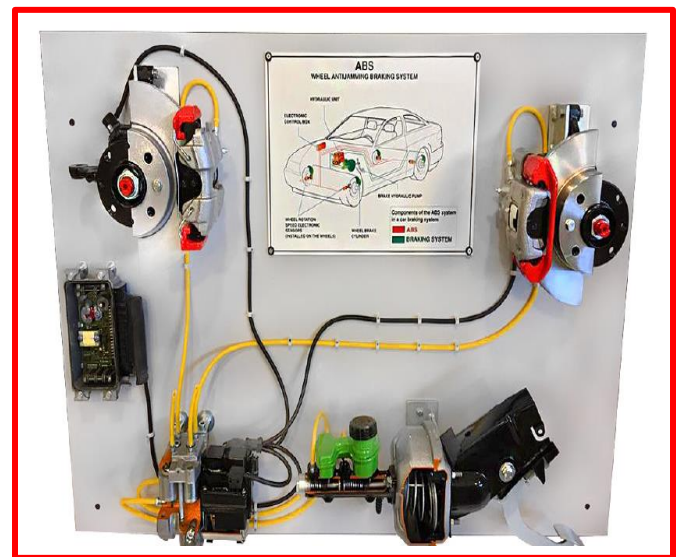

LTA-540

This product is an educational trainer of a modern ABS braking system for automobiles. It is mounted on a sturdy stand with wheels. This product allows you to:

- + Teach and describe all of the brake parts connected together to enable an easy understanding of the brake assembly operation.
- + Outline each of the parts, which have been carefully sectioned for training purposes and painted for easy differentiation between the mechanical parts.
- + Effortlessly move and store this trainer because of its compact and inclusive design.

Technical parameters

- + Self-ventilating disk brake with phonic wheel and sensor
- + Rear disk brake with phonic wheel and sensor
- + Servo brake with foot control panel and brake pump
- + Electronic control unit
- + Oil tank
- + Mounted on stand with wheels
- + Made from used torque converter
- + Function of the input and output rotors
- + Function of the stator with functioning free
- + Function of the lockup clutch by a disk system and a hydraulic piston
- + Function of centrifugal pendulum-type absorber and bow springs
- + It will be mounted on welded tubular steel frame with lockable castor wheel for mobility
- + Printed Panaflex Traffic Road Marking Sign
- + Lighting system with internal light bulbs in order to wheel have a better observation of the panel

WEIGHT AND DIMENSIONS

- + Size: 140cm x 50cm x 90cm (L x W x H)
- + Net Weight: 60 Kg
- + Gross Weight: 120 Kg

Note: The Picture pattern just for references may change
